Town Council
Marlington Town Council met Monday night, paid bills, etc. A permit was granted to Robert Jacobson to remodel a building on Tenth Avenue. Z. S. Smith and P. G. White, of the First National Bank, appeared and asked the Council's permission to remove 2 or 3 parking meters for an entrance on Third Avenue and exit on Main Street for a road around the Bank for access to drive-in banking facilities and a night depository. This was granted. Lee Williams, of Sturry Seal, Inc., showed a film on application of a slurry mix for roads. All action in regard to it was tabled.

Mr. and Mrs. Wallace Galford and family, of Slatyfork, will spend the winter in Florida.

Census of Agriculture
Plans for taking the 1964 census of Agriculture in Pocahontas County were announced today by Ruth M. Morgan, newly appointed census crew leader for the county.

The job will be done in three stages, the crew leader said. First will come recruitment and training of enumerators to count all farms in the county. About one enumerator for each 150 farms will be needed.

Shortly after November 12, the Bureau of the Census, an agency of the Department of Commerce, will start the second stage by mailing agricultural census questionnaires to all rural holders in the county. This will give farm and ranch operators, who are required by law to fill out the forms, a period of time to consult their records and fill in answers to the questions.

In the final stage, enumerators will visit each farm in the county to collect the questionnaires. At the time of this visit, the enumerators will help farmers complete answers to any questions the farmers may have had difficulty with. Enumerator visits are scheduled to begin in this county on November 16. Enumerators will take about three weeks to complete their work, the crew leader estimates.

The Census of Agriculture is taken every five years ending in "4" and "9" to gather up-to-date information on the nation's agricultural resources and production. Such information is vital in making decisions affecting many segments of the U. S. economy. Data gathered include the number and size of farms, acreage and harvest of crops, livestock inventory, information on farm equipment and facilities, farm products sold, and use of fertilizers, insecticides, and herbicides.

Mrs. Tom Edgar, Mrs. Anthony Hall, Billy Hall, and Karen Colburn attended the West Virginia-Kentucky football game at Morgantown Saturday.

Visiting Mr. and Mrs. John Bear Saturday were Mr. and Mrs. S. L. Stephens, of Richmond, Virginia, Frank Coffman, of Miami, Florida, Mrs. Paul Deputy and Jan and Kathy Suter, of Harrisonburg, Virginia.
